Germany is anti-Christ. Anti-Christ in beginning the war, anti-Christ in her method of carring it on, anti-Christ in her dealings with sur-rendered countries like Russia and Roumania. We used to wonder if there were not two sides. But poison gas, robbing of banks, raping of women and shotting of helpless and defenceless men is a record never before equalled by any nation in human history. Other nations have been cruel in warfare but not in organized Hellishness. There is now no question of how, why, or where we stand in this war. There is where we stand in this war. There is not room enough on this earth for Germany and civilized human beings So one or the other of us must die. It is either surrender your freedom your democracy, your minds and your Christ. or crush the Germans. We have no choice in this war. You veterans of the Civil war fought for the freedom of the shaves and now our boys over there are fighting for the freedom of the world.
